RESUME · PAGE 1 / 2

I tell stories. The camera, the edit and design are my medium.

Video Editor · Motion Graphics · Videographer · Photographer

I am a videographer, editor and photographer. Since 2020 I have made brand pieces end to end: idea, script, shooting, editing, colour, sound and Meta ads. I have led teams of up to six people on campaigns for the United States and edited and scripted for a YouTube channel with 2.53 million subscribers. I hold a degree in Multimedia Engineering, so I also design, animate and build websites.
