

Maxwell Fajardo

Graphic Design · Video Editor · Motion Graphics · Web

For more than five years I have made video and photography for brands, from idea to publishing: concept, script, shooting, editing, colour, sound and Meta ads. I have led teams of up to six people on campaigns for the United States and edited and scripted for a YouTube channel with 2.53 million subscribers. I hold a degree in Multimedia Engineering, so I also design websites and automate social media workflows.
